Claim 1, line11, deleted "second gate" and inserted ---second drain---.

Claim 7, line 11, deleted "first source terminal" and inserted ---first drain terminal---.

Claim 13, deleted "first source terminal" and inserted ---first drain terminal---.

Remarks

2. The changes above have been provided to improve the clarification of the claims language and claims have been amended to correct a typographical error. gate terminal, a second source terminal, a second drain terminal and a second lightly doped drain region, wherein the second drain terminal is coupled to the organic light emitting diode and the first lightly doped drain region and the second lightly doped drain region have different doped concentrations; and a capacitor coupled to the first drain terminal and to the second gate terminal in combination with all limitations recited in independent claim 1.

Prior art does not teach that, a control thin film transistor having a second gate terminal, a second source terminal, a second drain terminal and a second lightly doped drain region, wherein the second gate terminal is coupled to the first source terminal, the second drain terminal is coupled to the organic light emitting diode and the first lightly doped drain region and the second lightly doped drain region have different lengths or wherein no lightly doped drain region is formed in the control thin film transistor and a capacitor coupled to the first drain terminal and to the second gate terminal with all limitations recited in independent claims 7 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
